

LOADING GUIDE SIDE CURTAINS

Curtains are flexible sheets of material, usually made of durable vinyl, fitted to the sides of a truck or trailer. Unless rated for load restraint purposes, they are designed to:

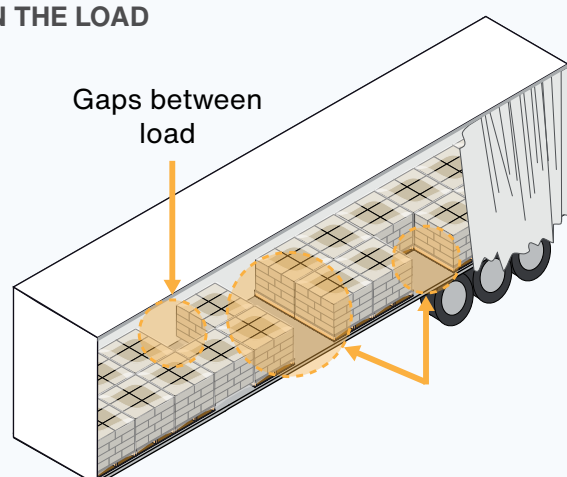

- ✓ Protect the load from the elements
- ✓ Allow for easier access to the load
- ✓ Make loading and unloading safer
- ✓ Provide security for the load
- ✓ Reduce the overall weight of the trailer.

⚠ RISKS

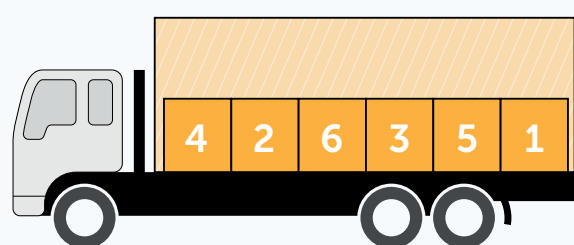

⚠ LOADS NOT RESTRAINED INSIDE CURTAINS

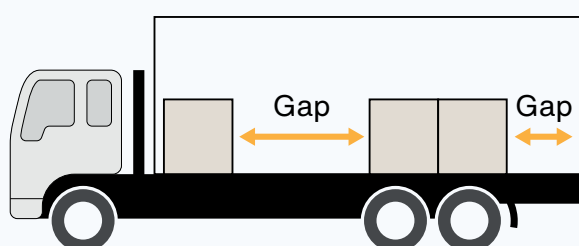

⚠ GAPS IN THE LOAD

⚠ DELIVERY NOT PLANNED

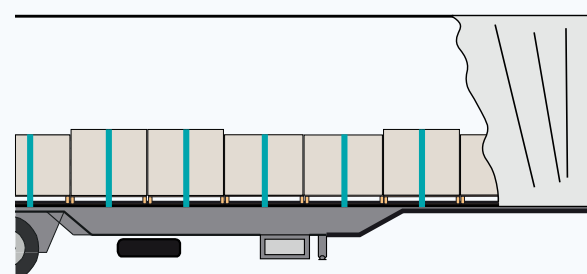

⚠ NOT RESTRAINED AFTER DROPS

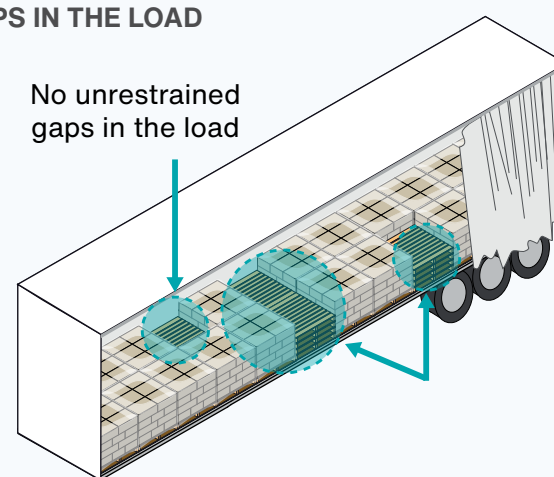

✓ GOOD PRACTICE

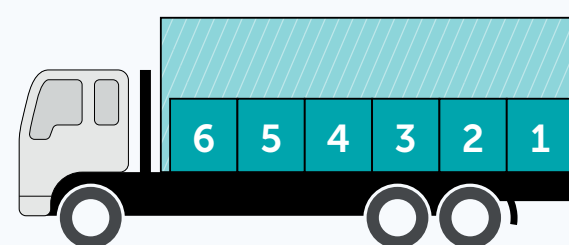

✓ LOADS RESTRAINED INSIDE CURTAIN

✓ NO GAPS IN THE LOAD

✓ DELIVERY PLANNED

✓ RESTRAINED AFTER DROPS
