

LOADING GUIDE **RATED CURTAINS**

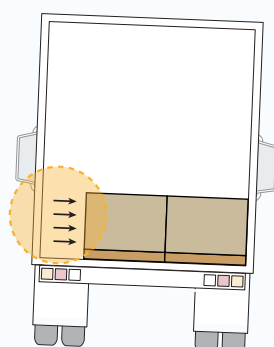

Load-rated curtains are certified components of a compliant load restraint system, designed to provide lateral (sideways) restraint when used within their tested rating. They:

- ✓ Form part of the overall restraint system
- ✓ Built with reinforced tracks, rollers, and fittings
- ✓ Provide lateral (sideways) restraint only
- ✓ Forward and rearward movement must be controlled separately.

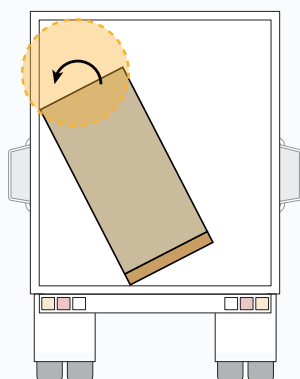

RISKS

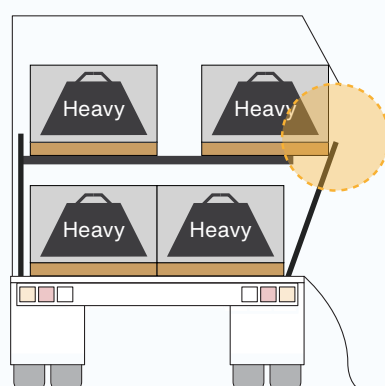

EXCESSIVE GAPS

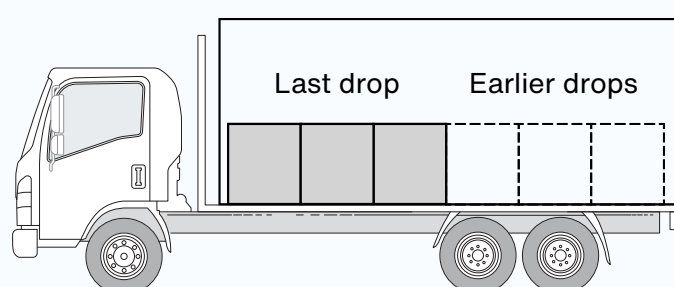

TOPPLING LOAD

DON'T EXCEED CURTAIN RATING

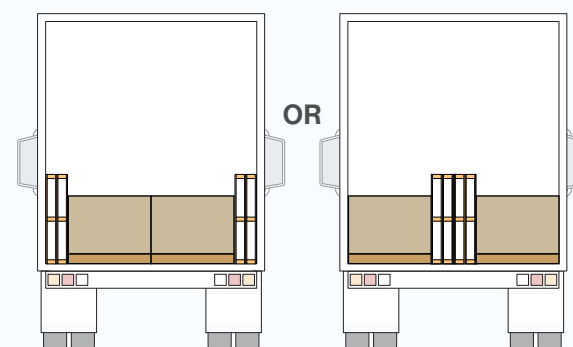

UNRESTRAINED LOAD

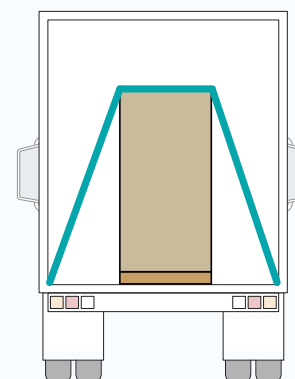

GOOD PRACTICE

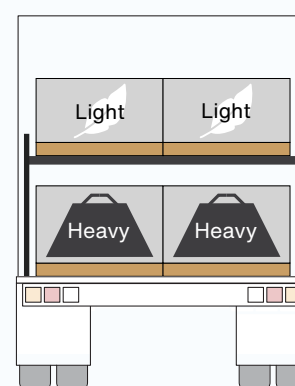

✓ GAPS FILLED

✓ RESTRAIN TOPPLING LOADS

✓ COMPLIANT WITH CURTAIN RATING

✓ RESTRAINED LOAD
