

Requirements for vehicle additions for the National Heavy Vehicle Accreditation Scheme (NHVAS)

The following describes the inspection documents required to have vehicles added to the Maintenance Management module of the NHVAS.

For the purpose of having vehicles added to their Maintenance Management accreditation, operators must supply the following documentation:

Newly manufactured vehicles	Evidence of first registration as a new vehicle within the last 12 months.
Vehicles currently registered	Heavy Vehicle Inspection Report issued by a Road Transport Authority in the last 12 months.
Vehicles moving from one operator's Maintenance Management accreditation to another operator's Maintenance Management accreditation	For vehicles moving between accredited operators please contact the NHVR for specific requirements.

Note: Operators seeking information about transferring vehicle registration should check with the relevant or intended jurisdiction of registration.
