Information Sheet

New South Wales Class 3 Grain Harvest Management Scheme
Mass Exemption Notice 2016 (No. 1)

Summary

- This notice replaces the NSW Class 3 Grain Harvest Management Scheme Mass Exemption Notice 2014 that expires on 30 June 2016.
- The new notice will operate on identical exemptions, and operation under the NSW Grain Harvest Management Scheme may continue as is.
- The new notice migrates existing maps to a new online mapping system administered by RMS.

Background

Since 2013, NSW has maintained a Grain Harvest Management Scheme aimed at increasing productivity for the NSW grain transport sector. The scheme is managed by the NSW Roads and Maritime Service.

The NSW Roads and Maritime Services administers the Scheme, and the National Heavy Vehicle Regulator provides the Class 3 exemption notice that gives force to exemption mass limits and gives force to the networks on which the Scheme operates.

Purpose of this Notice

On 30 June 2016, the NSW Class 3 Grain Harvest Management Scheme Mass Exemption Notice and its Schedule will expire.

This notice will be replaced by the New South Wales Class 3 Grain Harvest Management Scheme Mass Exemption Notice 2016 (No. 1) to provide continued operation under the NSW Grain Harvest Management Scheme from 1 July 2016 to June 2021.

The new notice will continue all of the current exemptions and conditions in the same terms, and so operations may continue as normal. However, a new feature of the notice will be that the road networks will migrate to online maps developed by the NSW Roads and Maritime Service, accessible by link directly from the notice or from the RMS website.

Full information on the Scheme can be found at the NSW Grain Transport page on the RMS website.

The new networks to be used with the notice may be found at GHMS network page on the RMS website.
