

Register your intent to develop an EWD for approval

General information

With the introduction of Electronic Work Diaries (EWDs) as an alternative to the written work diary, the NHVR is inviting technology providers and transport operators interested in developing an EWD system to register their proposal and intention to apply for approval.

Note: Registering your intent with the NHVR is not an application.

After registering you are under no obligation to apply for approval of an electronic recording system.

All information collected during this process will be treated as commercial-in-confidence.

To register your intent

To register your intent please complete the details below and forward via email:

To:	fatigue.management@nhvr.gov.au
Subject:	Att: EWD Project Team – Intention to develop electronic recording system for approval
Date:	

Contact person details
