

# National Class 3 Drought Relief Dimension Exemption Operators Guide

This operator's guide complements the *National Class 3 Drought Assistance Dimension Exemption Notice 2018* (Drought Assistance Notice) governing the transport of baled or rolled commodities.

The Drought Assistance Notice was developed to assist farmers with the transport of specific commodities to drought affected areas.

Under the Heavy Vehicle National Law (HVNL), heavy vehicles are normally limited to the following dimensions:

- 2.5m in width
- 4.3m in height.

The Drought Assistance Notice provides width and height dimension exemptions to heavy vehicles carrying specified baled and rolled commodities to drought affected areas.

Under the Drought Assistance Notice, an eligible vehicle that already has either general access, or restricted access under a Gazette notice, may operate up to the following dimensions:

- 2.83m in width
- 4.6m in height.

*Note:* The vehicle must already have access to be able to benefit from this notice, and must comply with the conditions of that notice.

For example, a rigid vehicle up to 12.5m in length would have general access if its width and height are no more than 2.5m and 4.3m respectively. The rigid vehicle, carrying baled hay to a drought affected area under this notice would be able to load up to 2.83m in width and 4.6m in height and retain general access on participating road manager roads.

Similarly, a B-double may access networks under a B-double notice in the same way, loaded to 2.83m wide and/or 4.6m high, so long as it complies with the conditions of that notice.

A heavy vehicle operating under this notice must also comply with the conditions from Schedule 8 of the Heavy Vehicle (Mass, Dimension and Loading) National Regulation (MDL Regulation).

This national notice is applicable to Queensland, New South Wales, Victoria, the Australian Capital Territory, Tasmania and South Australia.

Heavy vehicles operating under this notice must comply with the applicable road, travel and vehicle conditions listed in this guide.

Operators can find these notices on the National Heavy Vehicle Regulator (NHVR) website ([www.nhvr.gov.au](http://www.nhvr.gov.au)).

## Specified baled commodities

The *National Class 3 Drought Assistance Dimension Exemption Notice 2018* applies to the following commodities:

- Baled or rolled hay or straw

## Drought affected areas

A drought affected area is an area declared as drought affected or drought declared, or similar, under a law of the relevant participating jurisdiction.

Check your state or territory government website for officially declared drought affected areas.

## Participating road managers

This notice only applies in certain participating road manager areas. This includes all State and territory government controlled roads, plus roads managed by the Local Government Areas listed in Appendix 1.

*Note:* access to these roads may be conditioned, as per Appendix 1. The list in Appendix 1 is subject to change. Please visit [www.nhvr.gov.au/drought](http://www.nhvr.gov.au/drought) for the latest version of this operator guide.

The load must not project more than 165mm from the outmost part of either side of the vehicle.

## Eligible vehicles

The following vehicles are eligible to operate under the Drought Assistance Notice:

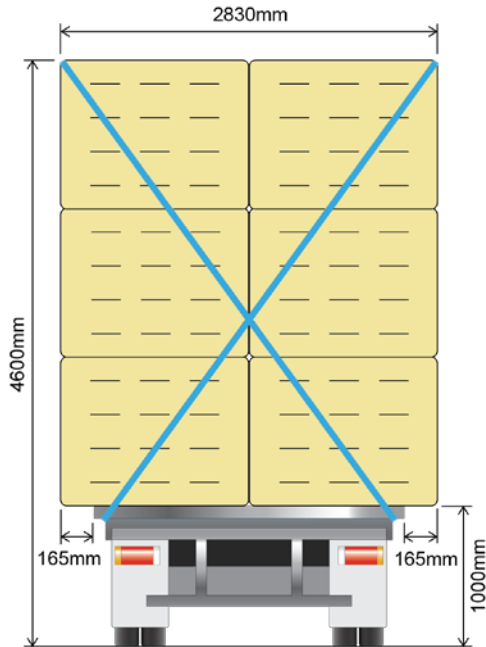

- a heavy rigid vehicle up to 12.5m in length
- a prime mover and semi-trailer combination up to 19m in length
- a prime mover and low loader combination up to 19m in length
- a B-double
- a road train.

*Note:* In Queensland, rigid truck and dog trailers are also eligible vehicles. In NSW, broader access is available under the *New South Wales Class 3 Drought Assistance Exemption Notice 2018*.

## Load restraint

Operators must ensure that the load is properly restrained and contained while in transport.

Organisations like the Australian Fodder Industry Association (AFIA) as well as the Load Restraint Guide published by the National Transport Commission (NTC) can offer some assistance.

Note: The straps on the above diagram are for illustration purposes only. If operators have any doubts about how to restrain their loads please seek expert advice.

## Areas or routes of operation

This notice primarily acts to allow vehicles that already have a level of access—be it general access or restricted access—to maintain that access if operating under this notice even when loaded to 2.83m wide or 4.6m high.

To gain access under this notice, the vehicle must:

- have access, either general or restricted AND
- be carrying specified baled commodities to a drought affected area AND
- travel on roads managed by a participating road manager.

Participating road managers, drought affected areas and specified baled commodities are all defined in this document.

## 4.6m high vehicle access in NSW

For travel in NSW, vehicles operating at a height of between 4.3m and 4.6m under the Drought Assistance Notice must also operate on the NSW 4.6m high network. The 4.6m high vehicle routes can be viewed using the RMS online interactive Restricted Access Vehicle Map at [www.rms.nsw.gov.au/business-industry/heavy-vehicles/maps/restricted-access-vehicles-map/map/index.html](http://www.rms.nsw.gov.au/business-industry/heavy-vehicles/maps/restricted-access-vehicles-map/map/index.html)

## General access

The following vehicles and combinations that comply with all conditions of this notice have general access under this notice:

- heavy rigid vehicles up to 12.5m in length

- prime mover and semi-trailer combinations up to 19m in length
- prime mover and low loader combinations up to 19m in length.

Note: Certain vehicles such as truck and dog trailers in Tasmania, may have general access under notices.

## Restricted access

An eligible road train or a B-double that has access under a current notice may access the networks available under that notice.

As well as complying with the requirements of this notice, an eligible vehicle must comply with all of the conditions of the current notice, except for:

- height and width—eligible vehicles may use the conditional height and width limits specified in s.12
- warning sign and flag conditions—eligible vehicles must always comply with the requirements in s.15
- any special conditions set out in the schedule of a participating jurisdiction.

For example, if a road train can operate under the *National Class 2 Road Train Authorisation Notice 2015*, it will have the same access under this Drought Assistance Notice up to 2.83m wide and 4.6m high if it complies with the requirements of this notice.

## Operating conditions

Eligible vehicles operating under this notice that are over 2.6m in width, must comply with the following requirements from Schedule 8 of the MDL Regulation:

- Section 2 - Warning Signs and Flags
- Section 3 - Warning lights and delineators if load projecting from vehicle
- Section 6 - Headlights
- Section 8 - No travelling in low visibility
- Section 9 - Minimum following distance
- Section 11 - Assessing routes.

## Participating road managers

This notice only applies on roads that are controlled by Participating Road Managers.

This includes all State and territory government controlled roads, plus roads managed by the Local Government Areas listed in the table in Appendix 1:

Note that access to these roads may be conditioned, as per Appendix 1.

## Appendix 1 Participating Road Managers

| Local Road Manager Area   | Conditions of Travel |
|---|----------------------|
| <b>New South Wales</b>  |                      |
| Albury City Council   | NA                   |
| Armidale Regional Council   | NA                   |
| Ballina Shire Council   | NA                   |
| Balranald Shire Council   | NA                   |
| Bathurst City Council   | NA                   |
| Bega Valley Council   | NA                   |
| Bellingen Shire Council   | NA                   |
| Berrigan Shire Council  | NA                   |
| Blacktown City Council  | NA                   |
| Bland Shire Council   | NA                   |
| Blayney Shire Council   | NA                   |
| Blue Mountains City Council   | NA                   |
| Bogan Shire Council   | NA                   |
| Bourke Shire Council  | NA                   |
| Brewarrina Shire Council  | NA                   |
| Broken Hill City Council  | NA                   |
| Burwood Council   | NA                   |
| Byron Shire Council   | NA                   |
| Cabonne Council   | NA                   |
| Camden Council  | NA                   |
| Campbelltown City Council   | NA                   |
| Carrathool Shire Council  |                      |
| 1. Any Shire roads that are unsealed are Dry Weather Access Only and may not be accessed when wet.  |                      |
| 2. No access is permitted through High Street, Hillston (the section of MR80S Kidman Way); the Hillston Heavy Vehicle Bypass must be used.          |                      |
| Central Darling Shire Council   | NA                   |
| Cessnock City Council   | NA                   |
| City of Parramatta Council  | NA                   |
| Clarence Valley Council   | NA                   |
| Cobar Shire Council   | NA                   |
| Coffs Harbour City Council  | NA                   |
| Coolamon Shire Council  | NA                   |
| Cootamundra-Gundagai Regional Council   | NA                   |
| Cumberland Council  | NA                   |
| Dubbo Regional Council  | NA                   |
| Dungog Shire Council  | NA                   |
| Edward River Council  | NA                   |
| Eurobodalla Shire Council   | NA                   |
| Federation Council  | NA                   |
| Forbes Shire Council  | NA                   |
| Georges River Council   | NA                   |
| Gilgandra Shire Council   | NA                   |
| Glen Innes Severn Council   | NA                   |
| Goulburn Mulwaree Council   | NA                   |
| Greater Hume Shire Council  | NA                   |
| Griffith City Council   | NA                   |
| Gunnedah Shire Council  | NA                   |
| Hawkesbury City Council   |                      |
| Access to the following roads are refused due to height restrictions (4.4m) as set by Sydney Trains across the electrified railway level crossings: |                      |
| 1. Bourke St. Richmond (Windsor St to March St)   |                      |
| 2. Racecourse Rd. Clarendon (approximately 140m Sth of  |                      |

| Local Road Manager Area   | Conditions of Travel |
|---|----------------------|
| Hawkesbury valley Way)  |                      |
| 3. Fairey Rd. Windsor / South Windsor (James Meehan St to Argyle St)  |                      |
| 4. Level Crossing Rd. Vineyard (Railway Rd South to Wallace Rd)   |                      |
| 5. Bandon Rd (Wallace Rd to James St) George St. Windsor / South Windsor (Brabyn St to Bell St) Railway overpass Bridge is restricted to 3.6m in height.                        |                      |
| 6. For rural local roads, where line marking does not exist these roads will generally be less than 6m wide, for safety reasons these roads will require further consideration. |                      |
| Hilltops Council  | NA                   |
| Hornsby Shire Council   | NA                   |
